

Parking in the Questrom School of Business

The Rafik B. Hariri Building garage is the most sought after parking facility on campus for permit holders due to its proximity to 100 Bay State Road, SED, and of course Questrom and the executive offices at One Silber Way.

While every effort is made to try and accommodate all guest requests for the garage, there is a limit to five reserved spaces as all attempts are made not to displace permit holders.

When someone needs to reserve a parking spot in this garage they cannot simply just leave a pass with the attendant on the day of the event or the night before and expect that there will always be a reserved spot. Special events and prior parking reservations made by other offices may take up too many spaces for all requests to be accommodated.

Whether you need to reserve one or more spots for the day or just a couple of hours, please e-mail parking@bu.edu and copy Bill Hajjar (bhajjar@bu.edu) and Tim Dunn (tpdunn@bu.edu) and let them know the name of the guest, the expected arrival and departure times. Whenever possible, they will reserve a spot in the Rafik B. Hariri Building garage. Parking Services does have the ability to reserve spaces in the Kenmore Lot, 549 Commonwealth Avenue, if need be, but they only do this on occasion as this lot is strictly a commercial lot. If parking is not available, they will redirect you to another campus location.
